

Dear Sirs,
I really enjoy listening to XM Radio! There is finally something to hear for everyone in my family. I was hoping in the future they would have state weather and traffic for Colorado. Please let them continue to broadcast this excellent satellite radio. I pay to have this excellent satellite radio service and listen to it at home and in my car. It is the first radio service I can get across the country, and not lose the signal. I believe it is safer than AM or FM radio, because I am not always searching for something to listen to. If I travel anywhere, I don't miss out on anything.

I would like to urge the FCC to reject the NAB's petition 04-160 and support the XM's ability to provide the kind of programming that I deserve to listen to, pay for and demand.

Thank you for listening!
